130NUS HWTC # 14

Abdullah MENTSOGUL 171024001

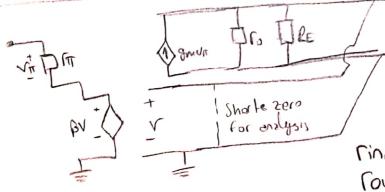

- small signal exdepesi wiz.
- -) feedback returork parametreleini elde et.
- ideal olmayar amplifier i gittle modifise edilmis devreyi tetras ciz ve ideal deputui hesapla.
- -) B=O Tain ideal deguler; hespla.
- Af, rinif, routif deperterni heseple.

5.5. eq. ____ fig.2 devrosinde renlimistir.

Feedback Network Analysis

 $B = \frac{\sqrt{f}}{\sqrt{o}} |_{if} = 1$ $R_{x} = \frac{\sqrt{f}}{|_{if}|_{v_{0}=0}} = 0$ $R_{y} = \frac{\sqrt{o}}{|_{y}|_{if=0}} = 0$

CamScanner ile tarandı

RS1 source degeneration a sebep olur. Bu durunda RS1 transconductance gaini azaltıp giris-cıkus portu empedanslarını ideale yaklastırır.
